## PROJECTS

### Malcolm Lismore Photographer's Website

*Software Engineering Course, Second Semester of 2024*

- Developed a PHP-based website for Malcolm Lismore, showcasing photography skills and enabling booking inquiries. Designed with HTML, CSS, JavaScript, and Bootstrap to ensure responsiveness and a user-friendly experience.

### Bus Reservation System

*Software Engineering Course, Fourth Semester of 2024*

- Developed a Java-based bus reservation system using Data Structures and OOP, optimizing booking and schedule management.

### Users experience design for E-video cloud

*Software Engineering Course, Third Semester of 2024*

- Developed a Figma-based Design.

### Salary calculation system

*Software Engineering Course, First Semester of 2023*

- Developed a C# and .NET-based salary management system for Grifido Toys, leveraging OOP to handle deductions, bonuses, and taxes efficiently.
-
